## **Nursery Meals**

We can and do cater for special dietary needs or food allergies.

Meal times are fun and a wonderful opportunity to socialise, learn table manners and help each other. Many parents are surprised at the wide range of foods their children will eat when in this sociable atmosphere.

## **Nursery Age Groups**

The children are grouped roughly by age but we are able to adjust this to suit the individual. Each age group has their own base room and staff.

Babies & Toddlers 4 to 23 months

Older Toddlers 24 to 32 months

Pre-School 33 months plus

All children join other age groups from time to time, for a meal, singing etc, which helps maintain our special family atmosphere.

## **Settling at Nursery**

Once you have decided to choose us to provide the care you need, please talk to us about free settling visits. These usually involve spending some time with your child in the Nursery and then gradually increasing the time your child spends alone with us. This may not eliminate upset at separation but can help a great deal. Ensuring your child is happily settled is a real partnership between home and Nursery. You know your child, and we know that distraction works. For the very youngest children, you may need to allow a few weeks for settling, especially if this is your child's first experience of separation from you.

## **Our Curriculum**

Our activities are planned using the government's "Early Years Foundation Stage" guidance which covers children aged 0 - 5 years and continues on into the School Reception Year.

Our children are offered activities through a 'Continuous Curriculum' supplemented by long term plans following the 'Flow of the Year'. Weekly and daily plans are adapted to the needs and interests of the children.

Plans are displayed for you to read. Through these, we encourage all areas of learning and growth in both self-esteem and social skills. Planned activities take place both in and out of doors as appropriate.

## **Activities & Facilities**

Activities include (but are not limited to!) painting, drawing, music and movement, role play, cooking, crafts, water/sand play, construction toys, singing, games, visits out and visitors in and computer work.

Our excellent outdoor facilities are used each day, as much as possible.

A quiet corner where books are available is always on offer, as well as activities to help the development of reading and writing skills.

To ensure consistency of approach, we have policies covering every area within the Nursery, including Special Needs, Admissions, and Parental Involvement etc. These are always available for you to read.

## **Partnership with Parents / Carers**

We recognise that you are the primary carers for your child and the people who know him/her best.

We believe it is vital that we work in partnership with you to forge strong links between preschool and home for the best interests of your child. We encourage your involvement in our activities and record keeping.

## **Making Your Choice**

Choosing a nursery or pre-school setting for your child to attend is a very important decision. We encourage prospective parents / carers to look around and compare the services offered by several providers.

There is a checklist available on our website with some pointers that may help you in knowing what to look for and what questions to ask.
